

2026 Scholarship Awards

Helpful Information About Scholarships

We encourage you to pursue all avenues to secure funding for your future endeavours. Here is some information we believe will be helpful to you in completing any scholarship application.

First, you should understand the different kinds of [financial aids- document attached](#):

- Scholarships (5 types)
- Bursaries (you may have to disclose financial information)
- Grants (similar to scholarships, and you may have to pay them back)

Be sure to check out the Financial Aid sections of school websites.

There are several Canadian [Scholarships and Awards available – please note the list attached](#). Review to see which ones might apply to you.

You must complete the application forms fully and submit them by the specified deadline. Additionally, ensure that all required documents are included. This may involve [submitting an application](#) or an essay; [we have provided a draft outline for your reference](#).

The IEC Scholarship Team understands that you may not have your most recent grades available due to the current circumstances. Please provide the latest grades you have. If you are selected for the scholarship, it will be on a conditional basis until you can submit your final grades.

[Enclosed also is a document with some possible questions](#) you will find on an application or in an [interview](#). Please review the documents as we know they will be helpful to you with the IEC Scholarship and/or any other scholarship, bursary or grant you choose to apply for.

We wish you all the best with your applications.
